Title: Concepts and methods for identifying brain correlates of elementary mental states

Attention: Mr. Jerry Lin, Examiner

Dear Mr. Lin:

1. The Final Office Action dated April 17, 2006 was returned to the Patent Office undelivered on May 2, 2006.
2. You then called me on October 19, 2006; two days after the time to respond expired, saying that the Office Action will be re-sent. Shortly thereafter, an associate of yours called. She stated that the cover letter will be currently dated so as to give me time to respond. However, the Office letter, which was sent in an envelope dated October 20, 2006 did not include that cover letter.
3. I ask that, as stated, a cover letter with the current date be sent.

Respectfully,

Copy: Dr. Ardin Marschel (571) 273-8300
